5.14 Criteria for Assessment and Weighting

Research Fellow and Librarian cadres

(a) The assessment and weighting on the criteria for appointments and promotions shall be as follows:

Criteria	Weighting (Maximum points)

(v)	Research Fellow II/Librarian I	-	25
(vi)	Librarian II	-	15

(d) **References**

Marks shall not be awarded for references but appointments and promotions shall be made contingent upon satisfactory references.

5.15 Guidelines on Criteria for Assessment and Weighting

(a) **Qualifications**

(i) **Academic qualifications**, the maximum score of 5 points shall be awarded for the maximum qualification possible in each discipline. The maximum score will be awarded for a Bachelors Degree, plus a Doctorate Degree.

(ii) **Professional Qualifications**

The maximum score of 5 points shall be awarded for recognized professional qualifications or membership of professional bodies.

(b) Research/Professional Experience (10 max)

(i) Length (5 Points)

In the weighting of length of research/professional experience, one point (in the case of non-professorial grade) and half a point (for professorial grade) shall be awarded subject to a maximum of 5 points for each year of full time teaching or research experience in a University or at a recognized equivalent institution or relevant experience.

Length of teaching/research shall start with the date of appointment to Assistant Research Fellow or its equivalent.

(ii) Quality (5 points)

Quality of research will only apply to internal candidates either for promotion or for appointment. In the case of external candidates this criterion shall be ignored and the maximum score obtained adjusted accordingly.

(c) Interview Performance

Assessment of interview performance shall apply to all appointments and promotions to Associate Professor/Professorial Grade.

(d) Current Research

The maximum score for Current Research is as indicated in table 1.

Table I

S/N	ITEMS	SCORING	COMMENTS/JUSTIFICATION
1.	Certified research in progress	1 mark per topic	
2.	Supervision of projects and thesis	1 mark maximum	
3.	Current seminar paper	2 marks maximum	
4.	Current learned/academic/professional paper presentation at conferences/Exhibitions	2 marks maximum	
5.	Academic/professional Public Lecture relevant to the candidate's discipline	2 marks maximum	
6.	Research related Curatorial duties, indexing, classification etc	2 marks maximum	Peculiar to Library

The total maximum score for all items is 10. Even though it is noted that a maximum score of 10 seems fairly small, this section has the benefit of encouraging staff to get involved in the items listed above. Output shall be principally measured through Publications.

(e) Publications

A candidate is scored on publications on the basis of the quality of the papers. The scoring is shown in Table 2.(a) and a key is provided in Table 2 (b).

Table 2(a)

S/N	ITEMS	SCORING	COMMENTS
1.	Journal Articles published in academically reputable journals, refereed conference papers, accepted papers in referred journals	3 marks maximum per paper	
2.	Refereed books	5 marks maximum per book	
3.	Contribution to refereed books relevant to candidate's discipline	3 marks maximum per chapter	Maximum of 2 chapters considered per book
4.	Referred monographs	3 marks maximum per monograph	Equivalent to one journal paper
5.	Book/Case reviews	1.5 marks maximum per review	
6.	Refereed and edited and published conference paper	1 mark maximum per paper	Maximum of 5 papers to be considered
7.	Book editing	1.5 marks maximum per book	Maximum of 2 referred books (Not Conference Proceedings) will be considered provided that editing of NIALS publication may exceed the prescribed maximum.

The following is the approved grading scheme:

Table 2b

	Patent/Book	Journal article, monograph etc.	Case Review/Book editing
Maximum mark	5	3	1.5
Excellent	5	3	1.5
Very Good	4	2	1
Good	3	1.5	0.5
Very Fair	2	1	0.25
Fair	1	0.5	0.1
Poor	0	0	0

In a case where the quality of a journal article is deemed unusually exceptional, e.g. landmark articles in hardship areas or in which research gestation period is generally accepted to be very

long, the Appointments and Promotions Committee may approve a special case for increased maximum weighting.

(f) MINIMUM SCORES FOR STAFF ON CURRENT RESEARCH AND PUBLICATIONS

(i) Table 3, shows the recommended minimum scores of journal articles for promotion to the various cadres. For a candidate to be promoted, he must score at least the stipulated minimum in both Current Research and Publications.

(ii) It is to be noted that appointments are based not only on academic degrees but also on professional status. For example, a graduate of law who has also been called to the Bar will be appointed as Research Fellow II.

(iii) In addition, candidates without Doctorate degrees will normally need more journal articles than those with one for promotion to the same cadre as shown in brackets in Table 3 for up to Senior Research Fellow.

(iv) All academic staff shall be required to obtain the Doctorate of philosophy Degree in the relevant subject area before they can progress beyond the grade of a Senior Research Fellow. In the case of library personnel it must be a Ph.D in Library Science or its equivalent. This should take into consideration the extant regulations by Council on candidates without a Ph.D.

Table 3

S/N		Current Research	Publications/Points X 3
	Maximum points	5	
1.	Research Professor		25 / 75
2.	Associate Research Professor		18 / 54
3.	Senior Research Fellow		10 / 30
4	Principal Librarian		8 / 24
5.	Deputy Librarian		15 / 45
6.	Institute Librarian		20 / 60

g. Focus of Publications

It is expected, in particular, for promotion to the cadres of Associate Research Professor that scores awarded for latter publications will be guided by relevance of publications to research focus.

h. Joint Authorship

Joint authorship should not necessarily be a disadvantage. Scoring of each article should be left to the good judgment of the reviewer based on the quality of the articles and the number of authors. In many cases, authors' names are listed alphabetically hence it may be difficult to ascertain the contribution of each author. Authors are normally required to specify their percentage contribution. Experience has shown that information given is usually unreliable. It should still be possible in some cases for one out of multiple authors to score the maximum mark for an article.

i. Status and Spread of Journal/Publications

Publications shall be in reputable, refereed international journals. It is expected that Articles published in unrecognised journals will not be accepted at all. Not more than 40% of the total number of published items should appear in journals in the immediate locality of the author. In the case of candidates for professorial cadre 30 % publications must be in foreign internationally reputable referred journals.

j. Counting of Number of Publications

A minimum number of articles have not been stipulated for promotion to the various cadres. Some candidates deliberately fragment their publications merely to gain advantage in the number game. **Fragmented publication would normally attract less mark. Only one of journal articles considered duplicated will be graded. Fragmented publications will not count for numbers.**

k. Accepted Articles

Not more than 25% of articles considered must be in the acceptance stage i.e. 75% must be in print. **Accepted articles that are more than three years old at the time of review shall be discountenanced unless a new letter of revalidation is obtained.**
